Baobab seeds

For planting

Why seed?

- Grow a resistant and durable tree
- Produces nutrient-rich fruits
- Contributes to reforestation and biodiversity

Cultivation Method

- Soak seeds in warm water before planting
- Sow in light, well-drained soil
- Place in full sunlight
- Water moderately during germination

Tips

- Keep soil slightly moist at first
- Use organic-rich substrate
- Protect young shoots from wind and animals

Quantiity –1 kg–

Longevity starts with a seed: grow your personal Tree of Life with our high-growth baobab seeds.
